

Lighting

GOLIGHT™
INC.

Since 1994 Golight has set the industry standard in remote controlled lighting. Our lights are in service around the world lighting the way for everything from MATVs in Afghanistan, snow plows in Alaska, Jeeps in Moab and everything in between. Over the course of the 2 + decades that Golight has been in existence, numerous updates have been made to the original Golight, new technologies have been utilized and new models have been added to the line. However, our commitment to quality and durability has remained unchanged. Golight's pledge to our customers is this, we promise to keep an eye on the future and embrace innovation in the lighting industry, to design and manufacture the highest quality products in the marketplace and to stand behind our products with unparalleled warranties and service.
